

System Components for Top-hat Rail Devices

Protective Housing IP 66 for Field Installation of Top-hat Rail Devices

Application

To install top-hat rail devices on-site, you can use a protective housing from Endress+Hauser in which there is space for several top-hat rail devices (to a maximum installation width of 145 mm).

Your benefits

- The low-cost, light plastic housing offers ideal protection against dust, moisture and an aggressive atmosphere.
- You can easily check the functioning of the installed device through the cover with sight glass.
- 5 field-tested cable entries M20x1.5
